

CONSTRUCTION PROJECT OF NEW DORMITORY BUILDING AND STAFF QUARTERS AT AASHRAM SHALA, SONVADA

Name of Project: Aashram Shala, Sonvada

Time period for the Project: 240 DAYS from starting of work

Estimated Required Funds: \$170,460.00

Funding Breakdown:

- 1) **\$17,046** before starting Project
(If we start project 1st May 2019)
- 2) **\$42,615** on 1st July 2019
- 3) **\$42,615** on 1st Sep 2019
- 4) **\$42,615** on 1st Nov 2019
- 5) Final Payment of **\$25,569** on or before January 1, 2019

Number of students in school till date: 210 students

If we calculate life span of building of **25 years** and if average 210 students per year utilize this building than, we are spending **\$32.46** per student.

Current Status:

Following are some reasons the Dormitory Building needs to be constructed immediately:

- Due to old cement sheets in roof, huge amounts of water leaks from the roof in addition there is ground water seepage from floor into rooms of existing structure converting them into ponds during monsoon season.
- Some parts of roof are collapsed due to decay of roof supporting structure (wooden frames) & due to that, the building was abandoned due to danger of collapse.
- Walls, doors & windows are deteriorated due to water leakage leaving them unusable.
- There are no basic necessities like lights & fans.
- As students are using classrooms as dormitory room in night, there is no beds & students forcefully sleep on to floor.

Building Impact:

- We can accommodate 210 students in new building.
- There will be good light, ventilation & a healthy environment.
- There will be separate & hygienic toilet blocks for boys & girls.
- The students will have bunk beds and individual storage space with their lockers.
- With higher living standard the students will be healthier and motivated with their studies.
- The students from tribal societies will be encouraged to attend school.
